

## Implementation of French:

At Lawford Primary School, the implementation of French language teaching and learning is guided by a commitment to instil a lifelong curiosity for language learning and open doors to understanding, appreciating and engaging with diverse cultures.

- Our French curriculum is thoughtfully structured to introduce language concepts progressively, allowing students to build a solid understanding of French vocabulary, pronunciation and grammar throughout Key Stage 2.
- We use the Rigolo scheme for French language teaching and learning. We supplement this with other resources for effective teaching and learning.
- We create interactive and immersive learning experiences, where students actively engage in speaking, listening, reading and writing in French. We create a natural and enjoyable language-learning environment through learning activities, ranging from role-play to games.
- We use French stories, songs, films, and multimedia in order to expose students to genuine language usage and cultural nuances, enhancing their understanding and appreciation.
- We celebrate languages throughout the year and discuss languages in other aspects of the curriculum where this is appropriate. We celebrate days of note such as French themed days and 'European Day of Languages', where classes are given activities and given opportunities to showcase their new learning with each other. We encourage students to practice French outside the classroom through homework assignments and interactive online platforms
- We use technology to enhance language learning; using language apps, digital resources and interactive websites that make learning French enjoyable and accessible both in and outside of the classroom.
- We employ formative and summative assessments to inform teaching strategies and provide an overview of our children's progress.
- We implement personalisation strategies to meet individual learning needs. This includes providing additional support for those who require it and offering extension activities for those ready to explore concepts in more depth.
- We regularly evaluate the effectiveness of our curriculum and teaching methods, making the adjustments needed to ensure we are delivering the highest quality of Modern Foreign Languages education to our pupils.
